

Chinese War Minister Instructed to Accept Some Tokyo Demands

Government Party Partially Clarifies Confusing Stand of Wednesday Afternoon When Demands of Tokyo Were Refused.

SPECIFIC POINTS

Japanese Will Not Reduce Forces in Manchoukuo But No Warfare With Soviet Foreseen.

(Copyright, 1935, By Associated Press)
Nanking, June 14.—China's elder statesman instructed today General Ho Ying-Chin, war minister, to notify Japan in writing that China will accept some of the conditions imposed by Japan for settlement of North China problems but considers others unacceptable.

The statesman, comprising the Kuomintang (government party) central political council, who yesterday threw the Sino-Japanese crisis into a flurry of uncertainty when they let it be understood that they refused to accept the latest demands of the Japanese, this afternoon partially clarified their activities.

In today's resumed session of the extraordinary meeting, the political councilors passed a resolution instructing the war minister to notify Japan that China will be able to accept "certain broad conditions" Japan desires for settlement of the North China impasse but the more detailed demands the councilors considered yesterday are not acceptable, and these latter, if the Japanese army desires their further consideration, should be presented through the usual diplomatic channels directly to Nanking, whereupon Nanking will give consideration through diplomatic channels with Altira Arayoshi, new Japanese ambassador to China.

Just what specific points the Chinese councilors included in their "certain broad conditions," which they accepted, remains uncertain.

4 Possible Points
It was believed, however, that they are essentially as follows:

1. China agrees to the withdrawal of all national government troops north of the Yellow river.

2. China agrees to the abolition of all Kuomintang organizations in Hopei province.

3. China agrees to the abolition of the Peiping branch of the military council.

4. China agrees to the abolition of the Peiping branch of the political council.

Chinese here point out that matters like the removal of Yu Hsueh-chung from the governorship of Hopei and the removal of the mayor of Tientsin, etc., the "national government" considers details not considered as constituting separate demands.

The situation as far as the national government is concerned therefore no appears to be that yesterday's seven Japanese demands await settlement through "diplomatic channels" if the Chinese desires prevail. What attitude the Japanese army holds in connection with Nanking's viewpoint on these matters, remains unannounced.

Forces to Stand.
(Copyright, 1935, By Associated Press)
Seoul, Korea, June 13.—General Senjuro Hayashi, Japan's plain-spoken minister of war, having completed a tour of inspection of Manchoukuo, including a visit to Heho on the Siberian frontier, told The Associated Press today that he saw no possibility of any reduction of the Japanese forces in Manchoukuo.

"Today," said the soldier regarded as most able to speak for the Japanese army, "there seems no reason to anticipate war between Japan and Soviet Russia, but the forces of the two nations are facing each other at close range along the Manchoukuan frontier."

The recent skirmish near Nishan, in which Soviet troops fired on a Japanese soldier within Manchoukuan territory, indicated the uncertainty of the future outlook.

General Hayashi, who is on his way back to Tokyo, spent the day in Seoul after inspecting Japanese divisions in North Korea.

The army, General Hayashi said, "feels under no necessity to challenge the Soviet into war," but he went on to indicate that the Japanese military leaders have little faith in the plans of the foreign minister, Koki Hirota, and other civilians to secure peace in northeastern Asia by "frontier demilitarization" agreements.

The army, the general continued, has been rumbling deeper as he drove home his points with increased earnestness, "can not remain indifferent to the strength of the Soviet's Far Eastern red army," most of which is concentrated along the Amur and Kwantung rivers, across which it faces the vanguard of the emperor's armies, the Japanese garrison of Manchoukuo.

A Huge Red Army
The Russian army in the Far East, General Hayashi indicated, is three times as numerous and as strong as Japan's army in Manchoukuo.

"I have reason to believe," he said, "that the Soviet now maintains in the Far Eastern territories about 200,000 men, over 600 airplanes, including many bombers, and between 600 and 700 tanks. Most of the force was assembled in 1932 and 1934. There has been no considerable change in recent months."

Says There May Be Seals In the Hudson After All

Albany, N. Y., June 13 (AP).—There may be seals in the Hudson river after all.

This was the opinion today of Dr. Emeline Moore, chief state aquatic biologist, after veteran seafaring men coming up the Hudson river on an ocean steamer identified two mysterious white creatures hovering beneath the surface as seals.

"Just a bit of lore for the land-lubbers," said those who scoffed at the report.

"There might have been hood seals," Dr. Moore said. "These are found along the northern Atlantic coast, and as far south as Long Island. They are black with white spots."

Dr. Moore would not be at all surprised if seals really did get in the Hudson by mistake.

"After the recent discovery of an alligator near Troy," she declared, "it is evident climate doesn't regulate everything."

Captain Preston Will Have Charge of Pistol Practice For Police

Captain Carlton S. Preston, recently appointed member of the Board of Police Commissioners, advanced the plan of holding competitive pistol practice among the members of the police force at the meeting of the board held Wednesday evening at the city hall. Captain Preston agreed to work out plans to have supervision of the practice.

Members of the police department in the past have held pistol practice, but never under competitive conditions. Under the plan proposed by Captain Preston, which was adopted by the board, the police will shoot against each other and the winners of the competitive tests will be awarded silver bars to wear on their uniforms. This will inform the general public when they see a silver bar on an officer's coat that he is an expert pistol shot.

In order that the plan may be placed in operation shortly the board placed an order for additional ammunition to be used by the officers.

The board imposed a fine of 15 days pay on the officer recently suspended for the chief of police for reporting for duty two and a half hours late. The name of the officer was not made public by the board.

Following the meeting it was stated that the officer up on charges had waived the six days notice allowed and had been fined the amount stated.

Routine matters were also taken up and the board then adjourned.

MEMORY OF MAN

Snow Falls in Durban, Several Lives Lost in Storm
Durban, Natal, South Africa, June 13 (AP).—Snow fell here today for the first time in the memory of living men and several lives were lost in the strange mixture of weather.

The inhabitants of this city, noted for its hot, humid climate, shivered in the cold wave. Railroad and highway communications were wrecked by a 12-inch rainfall which showed no signs of abating.

Several bodies were sighted floating in the resultant flood waters.

Maroon Dedicated To Principal Dumm

Today at 3 o'clock the Maroon, the 20th volume of the senior yearbook of Kingston High School, was issued at the school and will be on sale at O'Reilly's news store. This year the Maroon is dedicated to Clarence L. Dumm, beloved principal of the high school and highly esteemed citizen in the community.

The book, reviewing the year's activities of the school, as well as the senior class, is edited by John Newkirk, while the business has been ably managed by Edmund Rockford.

Utica, N. Y., June 13 (AP).—A redrafting of the proposed seven-state licensing agreement designed to establish equilibrium in the New York city and New Jersey milk market was urged by Fred H. Sexauer, president of the Dairymen's League Co-operative Association, Inc., at a hearing here today called by Peter G. Ten Eyck, New York state commissioner of agriculture and markets.

Speaking, he said, for 40,000 dairymen, Mr. Sexauer recommended that provision for establishing of milk prices on a uniform basis in all of the states covered by the licenses and that the proposed "distributor blending" of prices be so managed as to place all producers on the same price level.

"Important as are uniform administration and enforcement," he said, "uniform prices for the same quality of milk to be sold in the same market regardless of its point of origin are equally important."

Provision of Guarantee.
"There should be a provision which would guarantee the issuance of orders by each of the states and the federal government of uniform prices in the various classes."

Farmers selling to dealers who market most of their milk as fluid would receive a higher price than farmers selling to dealers who market much of their milk in surplus classifications, under the distributor blend provision of the proposed license, he argued.

This would bring about a continuous urge on the part of producers receiving the lower price to give their milk into the fluid market, even if the price they received did not equal the established fluid price. This would open the way for some dealers to buy cheap milk with which to compete with dealers abiding by the law.

"Such a situation makes enforcement of the law difficult, if not impossible. Such an unsound situation would be the destruction of the plan."

Will Fight for Peace
Agriculture Commissioner Peter G. Ten Eyck, who called the meeting, urged dealers "to live up to the law" in selling milk and emphasized "there will be peace" between dealers and producers "even if I have to fight for it."

"To those dealers who may be here I want to say to them that I want every dealer to make money and be in the 'black,' but I want them to live up to the law," he said. "It is my intention to enforce the law and see that they do it because it is to their best interests."

"The chisel goes in the 'red' and goes broke in the end, and the man who pays the bill is the producer. I am going to force you to make money for yourselves and be good, if it possible for me to do so."

Idea of Creation
"I don't want to destroy anyone. My education and bringing up on the farm is that I have been born to the idea of creation. The farmer is creating continually, and the engineer's job is to build things and create. But, as has been said, we are going to have peace even if I have to fight for it."

The commissioner said that too many have considered the standard of the dairy farmer's products, calling for certain sanitary requirements, without seeing that the farmer is compensated for the additional cost placed upon him through various laws.

"I do not personally disagree with, and am in favor of, the laws requiring a wholesome, clean, sanitary milk with high butter fat test for the markets of the state," he said.

"It is necessary, however, to place the dairy interests in the state on a sound basis, and care and attention should be given to this industry to see that the dairymen receive at least a living return for their products."

No Contributions in 1935.
New York, June 13 (AP).—No contributions are required throughout the current year under the Byrne-Kilgore unemployment insurance act. Elmer F. Andrews, state industrial commissioner, said today in writing against misleading advertising letters. The act will be applicable January 1, 1936, and the first tax will not be collectible until March 1, 1936. "Letters have been sent out," Andrews said, "giving the impression that the unemployment insurance act is now requiring an employer's contribution of an amount equal to three per cent of payroll. This is incorrect. The first tax, he said, will not be collectible until March 1, 1936."

Senate Passes Stop-Gap Plan, Smashing 16 Charge of Supervised Hours of Long Palaver

Louisiana Kingfish Loses Filibuster on Assorted Topics; A Crowd Gathers to Place Bets on His Endurance.

PHYSICAL RECORD

Resolution Will Continue Recovery Administration in a Ghostlike Form Without Codes.

Washington, June 13 (AP).—Smashing a filibuster which saw Senator Long (D-La) keep the Senate awake all night, Democratic leaders succeeded early today in gaining the chamber's approval of the stop-gap plan to extend a shadow NRA until next April.

The resolution, which now goes to the House for final action, would permit business men to make agreements governing labor conditions and unfair trade practices already prohibited by law.

The vote for the resolution was 41 to 13.

Only a few minutes earlier, the Senate had smashed down the amendment offered by Senator Gore (D-Okla.), which would have required Senate confirmation of all executive officials who draw more than \$4,000 a year.

It was in an attempt to avert the defeat of this amendment that Senator Long, aided in the final stages of the fight by the blind Senator Schall (R-Minn) and Senator McCarran (D-Nev) had talked nearly 16 hours, beginning at 12:20 p. m., yesterday.

Adjourned at 6:21 A. M.
The Senate then adjourned at 6:21 a. m., eastern standard time, after first deciding that when it meets again on Friday the social security measure, a major item in the Roosevelt program, will be debated.

Before the heavy-lidded Senators had raised their voices in a chorus of "Ayes" to jam through the NRA plan, Senator Borah (R-Ida) had offered an amendment to tighten up the anti-trust laws. This was adopted also without a record vote.

As Senator Pittman (D-Nev), who was temporarily presiding, announced the adjournment, the tagged Senators struggled off to breakfast and to bed.

The big break had come shortly before 4 a. m., when Long finally gave up, broken by his long discourse that covered everything from the constitution to the way to steal a guinea hen's eggs. He was forced down before a group of New Democratic Senators who served notice they were out to break his "control" of the Senate.

In Ghostlike Form
In its final shape, the NRA resolution would continue the recovery administration in ghostlike form, without codes, but with authority for voluntary agreements among business men dealing only with collective bargaining, minimum wage maximum hours, abolition of child labor and prohibition of trade practices already outlawed by statute.

The tally showed one Republican, Norris, of Nebraska, joining with 39 Democrats and LaFollette, the lone Progressive, to approve the extension resolution. Nine Republicans and four Democrats opposed it.

The Borah amendment would specifically write into the law that trade practices agreed upon under voluntary codes should not be in violation of the anti-trust laws.

There was much parliamentary wrangling and maneuvering when Long finally of countenance, turned the fight over to Schall. But out of it Senator Schall emerged with permission to have the clerk read a speech attacking the "Little Rascals" of the administration. It was a huge manuscript, and the senators settled down for a long siege.

Poses for Photographers
As the blind Senator, a bitter critic of President Roosevelt, got the floor, Long went outside and posed for photographers, but a few minutes later he was back, sprawled in a chair near Schall, advising him how to proceed.

Just before the Louisiana got his (Continued on Page Five)

Nothing Definite As To New Federal Setup Here

Stuart Parks Will Have Charge of Supervised Play in the City Parks

AN ATHLETE

Mayor Heiselman To Appoint a Recreation Committee to Have Charge of Park Activities.

Stuart Parks, a graduate of Kingston High School and the Y. M. C. Springfield College, where he is graduating as a physical director, will have charge of supervised play in the city parks this summer. This was announced this morning at the local ERB office when word was received from the State TERA that the project had been approved. The project calls for one director and four supervisors. Mr. Parks will be the director in charge, but the supervisors have not been selected as yet.

The plan for supervised play this summer in the city parks will be along similar lines to the program inaugurated when the late Palmer Canfield, Jr., was mayor of the city, when the work was in charge of Alfred Buley, then physical director of the public schools.

The project had the hearty support both of the members of the ERB and of Mayor C. J. Heiselman and was forwarded to the State TERA which has now approved it.

Mayor Heiselman stated this morning that he would shortly appoint a recreation committee to have the supervision of the work in the city parks.

Mr. Parks, who in his high school days was a noted Kingston High School athlete was known as "Stu" Parks, and after making athletic history at the high school he decided to take up physical work as his vocation and entered the Springfield College which trains men for the work of filling jobs as physical directors in Y. M. C. A. work throughout the country.

There will be supervised play for children at Forsyth Park, Hasbrouck Park and Block Park. It is also planned to have supervised play at the Athletic Field, if this can be obtained for that purpose as it is centrally located and will afford the children living in the central section of the city an opportunity to enjoy the facilities of supervised play.

TWO RUNAWAY BOYS CAUGHT HERE WEDNESDAY NIGHT
Henry Bunce, 15, of this city, and Joseph Larotta, 16, of New Rochelle, inmates at the Warwick Reformatory, were among the boys at that institution who were taken to West Point on Wednesday to witness the graduation exercises. The boys slipped away and hopped a north-bound freight train. As the freight was passing over the Broadway crossing one of the radio cars in charge of Officers Fallon and Sammons halted at the crossing. As they did so young Bunce, riding in one of the gondola cars, stuck his head out of the car and was seen by Officer Fallon. The officer recognized the youth and recalled that a teletype message had been received earlier stating that two boys had run away. It was shortly after 9 o'clock Wednesday night as the train passed over the crossing and the officers drove to the North yard and later came upon the boys near St. Mary's cemetery and took them to the county jail. Warwick was notified and shortly after 1 o'clock this morning officers from there arrived here and returned with the youths to Warwick.

Laborers on their way to work found the body.

Weyerhaeuser Kidnap Angles in Vancouver
Vancouver, B. C., June 13 (AP).—Two reports that may link the Weyerhaeuser kidnapers with Vancouver were under investigation here today.

The first report came from a mother of 10-year-old Dorothy Bowls. The girl told her mother that while she was out walking a tan colored automobile drove to the curb alongside her and two men accosted her. She ran home and later disclosed the car bore a "Vish license" corresponding with the number of a machine in which two men entered British Columbia June 3 at Newlay, B. C., near Nelson.

The second report was received from Edward F. LeSage, proprietor of a drug store.

Clipper Completes Hop To Hawaii, Sets Record

Alameda, Cal., June 13 (AP).—Ending the first leg of its pioneering commercial flight to Midway Island, the giant Pan American Clipper seaplane landed at Pearl Harbor, Hawaii, at 8:57 a. m., Pacific Standard Time, today, radio reports to headquarters here said.

The elapsed time was 17 hours and 58 minutes, bettering the time of the previous hop two months ago by 41 minutes.

The crew of the American Clipper encountered the rough weather it desired early today as the giant seaplane raced along the second half of the 2,400-mile flight to Honolulu, first stop in a flight from California to Midway Island in the South Pacific.

Through strong cross winds and over banks of clouds that sometimes were solid masses obscuring the Pacific Ocean, the flying boat passed the half way mark at 4 a. m., Eastern Standard Time.

Through the entire first half of the journey, Capt. Edwin Musick held his craft to a relatively slow speed, normally less than 110 miles an hour. At 5 a. m., he suddenly stepped up the speed to 154 miles as they bucked the strongest crosswind encountered thus far—a 32-mile wind from the north.

Band Concerts To Be Held Here Starting The Fourth Of July
A band concert project submitted by the local ERB has just been approved by the State TERA. The project calls for one supervisor and 16 musicians. The opening concert will be held on the Fourth of July at Forsyth Park, and concerts will be held nightly.

The tentative program calls for concerts on Monday nights in Forsyth Park; Tuesday nights in the rear of the Kingston High School; Wednesday nights at Hasbrouck Park, and Thursday nights in Block Park.

It is also planned, if it can be arranged, to have concerts on Saturdays and Sundays in the various institutions in the city.

This band project will afford work to unemployed musicians in the city, who will be selected from the relief rolls.

In former years the city was afforded a series of band concerts under the auspices of the Board of Public Works, but these concerts planned under the supervision of the ERB will supersede the city band concerts, which will not be held this summer.

Employables Should Register.
"On the other hand, it urged all local districts to use every effort to complete the registration of all employables now on relief at the earliest possible moment. Whatever may be the final organization of the federal work program, this registration will form the basis of selection of those employed."

The administration appreciates the difficulties inherent in the present uncertain situation and the continued concern of the local administration to care effectively for the needy unemployed. It advises, therefore, that continued planning for future operation under the existing program be carried on pending definite announcement of the new federal program, and that relief, both work and home, under the present program be continued to the fullest degree with the funds available."

The communication is signed by Alfred H. Schoellkopf, Temporary Emergency Relief Administrator.

City's Street Program.
Mayor Heiselman, when seen today, stated that it would be seen by the communication received from the State TERA that the proposed new setup would not be known for some time. He said that as soon as the federal plan went into operation the city was ready to commence work on improving at least 20 streets in Kingston, but unless the program was approved shortly that it might prove too late to do any street work this year.

Lunch Bag Clue Led To Arrest of a Boy

This morning police headquarters received a telephone call from the Masonic Club on Albany avenue, that a thief had been cornered in the building and asking that police be sent. One of the radio cars received a broadcast message and hurried to the building.

There it was found that a brick had been hurled through one of the rear windows and that the intruder had then reached in and released the latch unlocking the window through which he climbed.

A search through the building revealed that the intruder had made good his escape, and that although he had planned on taking money and cigarettes he had been frightened when he heard some one open the front door with a key.

Officer Soper in searching the building found a lunch bag. On the bag was the name of the owner, and the school he attended. The officer hurried over to the school and questioned the boy, who is 13 years old, asking him if he had taken his lunch bag with him to school. The boy told Officer Soper he had left his lunch bag in the rear of the Masonic Club.

The officer took the boy to police headquarters where he was held until his mother arrived. The case will have a hearing later in police court.

ETHIOPIA : WAR THREAT LOOMS for BLACK EMPIRE

5. The Army's One Cannon

While across Ethiopia's borders Italy concentrates such modern warfare detachments as flame throwers, the black empire's army now busily about its business of "training for any eventuality." European instructors say that in two years the Ethiopian forces have approached the perfection of European soldiers and what is lacking in training is made up for in enthusiasm. Here is seen one of the "bush" artillery soldiers finding the range with the "Black Empire's" only large cannon.

The World

Continuing its policy of making constant improvements to its line, General Motors Truck Company announces that a dual performance rear axle is now available for G. M. C. 1 1/2-2 ton trucks. This new feature introduced several months ago on the G. M. C. T-18 trucks in the two to three ton range permits a lower gear ratio and more pulling power with a marked saving in gas and oil consumption and considerable less wear and tear on the engine and other driving units.

To raise used car advertising and merchandising to new standards of excellence and dignity, the nationwide dealer organization of the Chevrolet Motor Company has arranged for a cooperative national campaign in newspapers and magazines. The advertising will carry to the public the pledge of the dealer organization that all its members will stand back of the used cars they sell. That is, used car prospects are to receive the same assurance that is given to purchasers of new cars—that the car has been tested, tuned, and conditioned, and is ready to give satisfactory service.

More Committees For Sale of the Blind

The Kingston Sale for the Blind which is now being held at 280-282 Fair street plays a very important part in the lives of the hundreds of blind workers. After months of patient instruction they have been taught to make household articles of a most desirable design and perfect workmanship. If these sightless employees of the Albany Association are to be self-supporting, their merchandise must have a ready sale. Generous patronage will insure steady employment. The committees from the various churches of Kingston ask all to give this most necessary patronage. Buy from the blind.

If you should go into a workshop for the blind, you would find rows of factory Singer sewing machines, running by electricity, each operated by a sightless girl. These operators have no special guide, but use the machines in exactly the same manner as the skilled, sighted sewers. They use hemmers, blinders and other appliances, and produce articles at an amazing rate of speed. It takes only a few minutes to blind an apron and only a few seconds to hem a towel.

By a special arrangement with the manufacturers of the Lady Pepperell products this sheeting and tubing, as it comes from the factory, is sent to the workshops for the blind, and there it is hemmed into sheets and pillow cases by these skillful sightless workers who are authorized to use the trade mark of this well known brand. Investigate this line. You will like it, for the price is most reasonable.

The following is the time of service and the committees who will conduct the sale on Friday, June 14: 10 a. m.-2 p. m., St. John's Episcopal Church; Mrs. Willis Locke, chairman; Mrs. E. Hoff, Mrs. W. Van Natten, Mrs. A. Fritog, Mrs. A. Shelley, Mrs. A. Hazenbush, Mrs. F. Lease, Mrs. R. Constable, Mrs. H. Battenfeld, Mrs. R. Craft, Mrs. W. Elston, Mrs. F. Bushnell, Mrs. H. Kapreilian, Mrs. P. Brinnier, Mrs. A. E. Fronefield.

2-5:30 p. m., St. Mary's Catholic Church; Mrs. Julia E. Kane, chairman; Miss Gertrude Bradley, Mrs. Nan Garavan, Miss Mary Geary, Miss Catherine Welch, Mrs. William Rafferty, Mrs. Hilda Mahar, Mrs. Joan Goldrick, Miss Mary McGill, Miss Anna Ryan, Miss Marie Dunne, Mrs. T. Donovan, Miss Sara Rigney, Mrs. G. Kogel, Mrs. Joseph Murphy.

Welcomes Return of Rev. H. D. McGrath

Epworth Hall of the Clinton Avenue M. E. Church was filled to capacity Wednesday evening when the members and friends of the church gathered to welcome the return of the pastor, the Rev. H. D. McGrath. After receiving a unanimous call from the official board of the church, the Rev. Mr. McGrath was returned to the local pastorate by action of the recent session of the New York Conference of the Methodist Episcopal Church. Although this gathering was postponed from May 14, due to sickness at the parsonage, there had evidently been no loss of enthusiasm for Wednesday night's party of welcome will long be remembered as one of the most successful and satisfactory affairs of this very active church organization.

At the table as guests of honor with the Rev. and Mrs. McGrath and children, Dixon and Miriam, were the Rev. Joseph W. Chassey, superintendent of the Kingston district, Mrs. Chassey and daughters, Ruth and Peggy; also the Rev. and Mrs. J. T. Legg of Port Ewen.

Following the delicious covered dish supper which had been arranged by the Ladies' Auxiliary of the church, Mrs. Ray A. Haines, president of the Auxiliary, called on Myron Styles who, in his usual earnest and convincing manner spoke for the official board, welcoming the pastor and his family and assuring him of the board's continued support in the endeavor to make the present conference year an even greater success than the year just passed.

The Rev. Mr. McGrath in a short reply convinced those assembled of his sincere satisfaction at being returned for a continuation of his pastorate at Clinton Avenue.

The Rev. Mr. Legg gave a short but inspiring talk, during which he mentioned the close bond of friendship existing between him and the Rev. Mr. McGrath.

A few earnest words of welcome and pledges of cooperation and support were then given by W. N. Rider, superintendent of the Sunday School, Donald Hyatt, president of Epworth League, and Raymond Rignall, president of the Men's Club.

Welcomes Return of Rev. H. D. McGrath

The Rev. Mr. Chassey in his inspiring manner, so well known to those who have heard him, in a few minutes left the listeners for hours of thought.

During the evening Vernon Miller led in group singing and a very beautiful and fitting solo was rendered by Mrs. Raymond Rignall, accompanied on the piano by Mrs. B. H. S. Ellison.

The presentation of a beautiful bouquet by Mrs. Haines from the Ladies' Auxiliary to both Mrs. McGrath and Mrs. Chassey, followed by a few fitting remarks from the recipients, was a very beautiful conclusion to the evening's program.

The affair will be in the form of a dessert bridge, the guests assembling at 6:45 for dessert, and remaining to play until dark. Miss Mary Howard is general chairman of the affair, and the proceeds will be for the service fund of the club.

For their next summer outing, the club members have been invited to meet at the home of Miss Ellen Van Slyke on Wednesday, June 26. Those planning to attend are requested to notify the Y. W. C. A. office in advance.

Application for Bus Line Transfer

Albany, June 13 (Special)—Formal application for consent of the Public Service Commission to the transfer of the certificate for operation of a bus line between Kingston and Creek Locks, from Raymond Kelly to William J. Deyo and Mrs. Florence M. Jacquin, was placed before the commission at a hearing in the State Office Building here Wednesday afternoon. There was no opposition to the proposed transfer. All three of the petitioners reside in Creek Locks, Ulster county.

William G. Himes, transportation engineer for the commission, submitted to examiner John F. O'Brien, who conducted the hearing, a report on the appraisal of the property of the bus line, which was requested by the commission before it closed the case.

Ulster county attorney, Arthur B. Ewls, of Kingston appeared in behalf of his client, William Deyo, who was also present.

Final decision by the commission is expected soon.

With the trout fishing season at its height and with the camping and picnicking season rapidly approaching, Conservation Department officials urge all sportsmen and lovers of nature to avoid contaminating streams and brooks in any manner. This applies to all flowing water in the state, since it is impossible for those who seek recreation in the woodlands to know for certain whether or not a stream enters a public water supply reservoir several miles away.

Jack Dempsey knows Men like **Gulden's** on meats

BREAST OF LAMB A LA GULDEN is featured this week at Dempsey's Restaurant

Jack Dempsey's Restaurant scored a "knock-out" the day it opened—the quality of its food and cooking has made it one of New York's most popular restaurants. It features "a la Gulden" dishes because Gulden's Prepared Mustard adds so much extra flavor when spread liberally over meats before cooking. Try it at home on steak, chops, roasts—your husband will vote it a treat! But remember only Gulden's has the distinctive blended flavor that makes it the ideal seasoning for cooking. Heavy Newsprint Demand Depletes U. S. Reserves

Newsprint is largely finely ground wood with enough of the fibrous pulp added to make it hold together. In addition it contains clay, to give it body, and sizing material, to keep it from soaking up and blurring ink the way blotting paper does.

Unfortunately, writes Thomas M. Beck in the Chicago Tribune, paper made from wood pulp is inferior in certain respects to that made from linen. For one thing, it deteriorates with age much more rapidly. For this reason, paper that is to be used for permanent records still is made from rags.

The phenomenal growth since the World war of the industrial application of synthetic cellulose derivatives, such as rayon, ladders, plastics, and cellophane, opened up a new field for the use of wood pulp. Originally about half of the rayon on the market was wood. Since the pulp used for this purpose must be of exceptionally pure quality to compete with the other source of cellulose, cotton linters, however, it is hardly likely that this use ever will consume an amount of wood pulp comparable to that required by the paper industry.

Not all types of wood make good paper. Virtually all of the pulp used comes from spruce. The millions of tons of newsprint required annually by American newspapers have seriously depleted this country's reserves of this timber, with the result that since about 1900 there has been a steady shift of the paper industry to Canada.

GAY PARADE OPENS SHRINE CONVENTION

With the capitol dome in the background, thousands of Shriners marched up Pennsylvania avenue in a colorful, musical parade to open their 61st annual convention in Washington. Here is a general view of the procession that lasted three hours. (Associated Press Photo)

America Once Had Queen; Throne Room Now Empty

In the Capitol building at Honolulu, where the Hawaiian legislature meets, is to be found the only throne room under the American flag. The throne stands in majestic emptiness in a room where it suggests the tragic story of a great queen who was forced to vacate it four decades ago. The queen was Liliuokalani, who abdicated a few years before the United States annexed

Hawaii in 1898. She was the only queen ever to become a citizen of the United States.

Stubbornly resisting the overthrow of her monarchy, Liliuokalani yielded only after she had been taken prisoner and a provisional government, under Sanford B. Dole, as president, had been set up. The queen protested to President Cleveland that United States troops had been landed to aid the revolution, and she appealed to him to restore her to her throne. Unsuccessful,

she finally abdicated and, ex-queen, though she was, devoted the rest of her life to performing works that endeared her to her people.

She composed the touching Hawaiian song "Aloha Oe," heard by everyone who knows the name of Hawaii. She wrote poems. She dedicated herself to promoting education, and before she died she established a trust the income from which was to be used to found and maintain orphanages.

JUVENILE LEGISLATORS

A news picture of a group of state
 legislators celebrating the end of an
 imperfect session, 12 days after they
 had stopped the clock, is familiar
 enough to Americans, but makes
 some of us stop and think a little.
 It shows these middle-aged men dis-
 porting themselves like a crowd of
 high school sophomores. The air is
 full of paper wads, torn newspapers,
 wastepaper baskets, pamphlets and
 books. Decks and floors are littered.
 It is a scene of devastation such as
 would not be permitted in any
 schoolhouse.

These are middle-aged men, law-
 makers, in a noble and dignified
 building dedicated to the government
 of a great state. It may partly ex-
 plain why so many private citizens
 do not take government seriously.
 But does it explain the legislators
 themselves? Their lack of dignity
 and sense of propriety? Another
 phase of the same juvenile, rough-
 house quality is described interest-
 ingly by an English writer, J. B.
 Priestly, in Harper's Monthly. He
 was struck by the incongruity of the
 antics of a group of "stout, middle-
 aged Americans" at the Grand Can-
 yon, seemingly oblivious of its beauty
 and grandeur. He says:

It seemed to me that, even when
 you have made all due allowance for
 the lack of official ritual and pa-
 ganism in American life, the Ameri-
 can male, with his secret societies,
 comic hats, processions and brass
 bands, still has a strange passion for
 these idiocies. Is there something in
 the size and monochromy of this vast
 land that compels him to be cheerfully
 idiotic with a crowd of other roar-
 ing males, that the country is still
 too new and raw for an austere in-
 dividualism?

Yet the old authentic American,
 Babbitt's grandfather, the lean pio-
 neer, was surely an austere individ-
 ualist. When did he turn into a wear-
 er of comic hats, a processioner, a
 brass band follower, a roaring back-
 slapper, in principle? I ask, because
 I do not know.

RUSSIAN COMMENCEMENTS

Every time Russia starts doing
 something that capitalist countries
 do, some one says it is abandoning
 its Communism and turning to
 Capitalism. Perhaps it is, or per-
 haps it is learning that some human
 activities and interests may be de-
 sirable regardless of the form of
 government.

For the first time since the Rus-
 sian revolution, high school graduat-
 ing classes there are being allowed
 to have class day exercises and other
 affairs much like those of our own
 commencements. They are taking
 place all over the Soviet Union. They
 are encouraged under Stalin's
 recent ruling that more attention
 must be paid to individuals.

Thus the 2,200 students graduat-
 ing from Moscow's secondary schools
 perform before audiences of proud
 parents in various theatres and halls.
 The youngsters are dressed up in
 their best clothes, the girls have
 flowers, the parents beam happily.
 There are even commencement ad-
 dresses in which the boys and girls
 are given much advice and instruc-
 tion. "Do not be over-confident,"
 said one speaker. "Be natural and
 frank in your conduct. Be cultured.
 Respect the experience of your older
 comrades." He also reminded them
 that there are 25,000,000 pupils in
 Russia's primary and secondary
 schools today, more than three times
 as many as there were in Czarist
 Russia. This is a notable gain in
 opportunity which should mean
 much for Russia's future.

CALENDAR, TOWN

The hubbub over the Supreme
 Court decision and the fate of NRA
 seems to be settling down rather
 satisfactorily, except for those on
 both sides who wanted a big fight
 regardless of consequences. They
 were probably a minority. What
 most people want is calmness, co-
 operation and prosperity. So any for-
 mal fight over NRA, political or
 constitutional, is to be postponed
 until next summer, when politics
 will be in order. Then the issue of

stronger federal powers for economic
 control can, and probably will, enter
 the presidential campaign.

For the present, the sensible thing
 is not to force the issue premature-
 ly, but to go quietly ahead re-adap-
 ting public recovery plans to the
 principles laid down by the Supreme
 Court. A skeleton NRA may properly
 act as a mere "fact-finding"
 body and work in cooperation with
 private business for the voluntary
 observance of satisfactory codes.

There will be an experiment in self-
 government by business and in the
 power of popular compulsion for
 fair dealing among business, labor
 and public. We shall all know more
 by next April.

ABOLISH CIRCUS TAX

A bill introduced in Congress by
 Representative C. V. Truxa proposes
 to remove the federal tax on admis-
 sions to circuses. The measure was
 taken seriously enough to have it
 referred to the ways and means com-
 mittee.

This would make a hit with the
 circus people. It would make a big-
 ger hit with their patrons. Every
 kid in America would vote for it—
 if he had a vote. The kids might
 organize a lobby. If they hung to-
 gether, the reform would probably
 go through with a rush. If neces-
 sary, they could march on Washington
 and see to it personally. Where is
 the benevolent Pied Piper to lead them?

PATIENTS CHOOSE FOOD.

It is not so long ago since it was
 customary in hospitals to prepare
 all the food in the one kitchen and
 patients, nurses, orderlies and other
 employees received the same kind and
 amount of food.

As you know, hospitals have to
 be economical because so many of
 their patients are "free" patients
 and the amount the municipality is
 able to pay for these free patients is
 often quite limited. This means
 that the food, while good, must be
 plain and also often served in a
 "plain" manner.

A few years ago it was found that
 if the tray with the food was made
 attractive to the eye the patients
 enjoyed their meals more. This was
 because the "brain appetite" (eyes,
 nose, taste) caused the digestive
 juices to flow freely.

But now a further step forward
 has been made as some European
 hospitals are introducing an "a la
 carte" service which permits the
 patients to choose the food they de-
 sire or which is prescribed.

At first the experiment was tried
 of serving the tuberculosis patients,
 who are particular about their food,
 with a selective diet, allowing them
 the choice of one or two articles.
 The complaints in this department
 ceased immediately.

The system was then tried in
 other departments with equal suc-
 cess. Hence the new system was in-
 troduced into all the departments
 and the patients were allowed to
 have a selected diet at all their
 meals. No complaints developed.

There is no doubt that if the pa-
 tients can have a choice of foods it
 helps their recovery and influences
 their well being.

It was found also that certain
 cheaper foods of high quality can be
 served more frequently since the pa-
 tients do not need to select them
 unless they so desire.

I believe this method of supplying
 nourishing food of the kinds liked
 by the patients should be estab-
 lished in all hospitals. As men-
 tioned above, research workers have
 been able to show that when the
 patient likes certain foods, and has
 the "memory" of how much he likes
 them, the digestive juices of the
 mouth, stomach and pancreas all
 begin to flow before the food is
 eaten, and his "brain appetite" di-
 gestive juice continues to flow for
 45 minutes after the food is eaten.

In the private patient department
 of many of our hospitals this system
 has been in use for some time.

Senate Passes Stop-Gap NRA Plan

(Continued from Page One)

relief, he had told the administration leaders, in a voice that resembled a croak, that he would continue indefinitely the speech he began at 12:30 p. m., yesterday.

Around him sat angry Democratic leaders, heavy-lidded and exhausted, but expressing determination to shatter Long's "control" over the Senate by blocking a recess until he dropped or cried "quits."

Long's speech, veteran senators said, was by far the record for physical endurance of the kind. Other filibusters had lasted longer, but they had been waged by a group

of senators or by one senator with rest periods.

A Long Discourse

Long's wandering discourse roamed from the correct way to wash turnip greens through readings from the Bible and Victor Hugo to a long short story about how Vice President Garner "shot a deer from a tree and then fell out of the tree." He lectured the Senate on the constitution and the art of cookery.

To the galleries Long's filibuster was a show vying with the shrine parades, now enthralling the capital. A large crowd stayed awake all night to watch the Louisianan and make bets as to how long he could last.

Stole His Cheese

Occasionally, he drank milk and

cold coffee and ate cheese off a plate—until some senator surreptitiously scooped up the remaining cheese and ate it himself.

Once Senator Barkley suggested that Long leave off speaking and sing.

"When I sing," Long said, "it will be for somebody who is better looking than the senator from Kentucky."

At one point a colleague told Long he was "as popular as a cuckoo clock in a boy's dormitory at 3 a. m." And at another Senator Minton (D-Ind.) suggested that Long shouldn't talk so loud because "there are a lot of senators asleep around here."

"I'm sorry I woke up the senator from Indiana," Long said. "The Senate would have been better off had he remained asleep."

The NRA resolution goes to the House today, and quick passage there is anticipated by administration leaders.

A fine report of the district conference held in Kingston on May 18 was given by Mrs. Margaret Pendill which was fully appreciated.

Annual reports were given by the secretary and treasurer and a vote of thanks was given to the officers and chairmen for their faithful service during the past year.

Mrs. Hart announced the following chairmen: Program, Mrs. R. H. Van Valkenburgh; publicity, Mrs. W. R. Anderson; publications, Mrs. Margaret Pendill; refreshments, Mrs. W. I. Goodrich and Mrs. J. Caruso.

Principal Van Valkenburgh announced that the collection of Indian relics donated to the school by the pupils and parents had attracted the attention of the New York City Museum of Indian Life and Relics at 156th street and Broadway. Dr. High had visited the collection and offered to buy certain pieces. After discussion with the teachers it was decided to present the museum with seven pieces which particularly appealed to Dr. High and they now reside in that building.

The publicity chairman, Mrs. W. R. Anderson, reported that there were 915 registered, voting delegates at the convention of the National Congress of Parents and Teachers held at Miami.

The semi annual meeting of the National Board of Managers will be held in September at Rapid City, S. D.

Mrs. B. F. Longworthy, the national president, represented the National Congress at the convention of the Hawaii Congress June 10 and 11. She will also represent the National Congress at the biennial convention of the World Federation of Education Associations to be held in Oxford, England, August 10 to 17. The International Federation of Home and School, of which Mrs. Longworthy is a director for the United States, will hold a meeting in connection with this convention.

DOES YOUR HUSBAND CALL YOU GROUCHY?

He's truthful if not tactful. Man-like, he is bewildered by your offishness and irritability. He can't understand what you have to be blue about. He wishes that you'd snap out of it. He'd do anything he could to help you. If he knew how good Lydia E. Pinkham's Vegetable Compound was, he'd go straight to the nearest drug store and buy you a bottle.

"My husband says I am my old self again," says Mrs. Barbara Sparks, 799 Elm Street, Akron, Ohio. "I was tired and all in with no appetite. Had no pep and was in poor spirits. Your Vegetable Compound eliminated that awful tired feeling."

Don't try your husband's patience too far. Get a bottle from your drugstore NOW. It probably will help you, because nearly a million American women know from personal experience that it helps them.

MODES of the moment

YOUTH'S daring "permits" the tricky smartness of mortar-board hats.

Liana Merwin

Vacation time means sunny, lazy days of basking or lolling on the beach if you go to the shore, or on the grassy green if you choose the country. To be comfortably dressed is paramount and the new tricky styles show comfort and smartness going hand in hand.

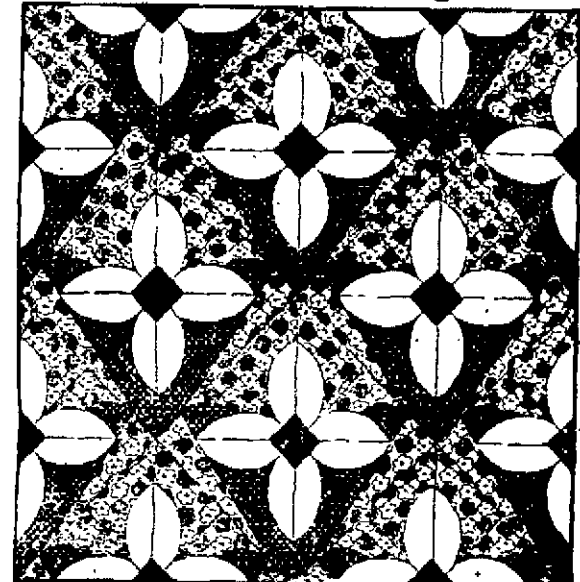

While these new sun togs are indeed brief and particularly fashioned with the youthful miss in mind—many matrons who still retain trim figures wear them well. Youth, however, has the daring to wear all

the new tricky styles and seem to get these silly little sun hats on at the desired rakish angle.

The polka dot set above consists of halter with white rope neckline and ties at back. The mortar-board hat is just enough to shade the sun and is held jauntily on the head with crisp white organza which ties in a pet bow at front or side.

Tahitian print in red and white is used for the set below—halter ties in the same manner but the hat is a bandana peaked bonnet that ties at back and adjusts to any head size.

Dogwood, that lovely flower of May has inspired the quiltmaker in this choice patchwork quilt to which it has given its name. The flower, of course, should be white or pink against some colorful background with the leaves in green. The block will be a delight to any needlewoman for it is a very easy one to piece.

In pattern 5376 you will find the Block Chart, an illustration of the finished block in actual size, showing contrasting fabrics; accurately drawn pattern pieces; an illustration of the entire quilt; three color schemes; step-by-step directions for making the quilt, and exact yardage requirements.

ACCORD

Accord, June 12.—Church services at the Rochester Reformed Church Sunday, June 16: Sunday School at 9:30 a. m. Divine worship at 10:30 a. m.; sermon subject, "When Jesus Walked among Men."

The Sunday School of the Rochester Reformed Church will serve a strawberry supper in the church basement on Thursday, June 20, at 6 p. m. The menu will be sandwiches, potato salad, deviled eggs, pickles, strawberries, cake, coffee and ice cream.

A strawberry festival will be held Saturday, June 15, by the Ladies Aid Society of the M. E. Church. The menu will consist of baked beans, scalloped potatoes, meat sandwiches, pickles, coffee, cake, strawberries and ice cream, starting at 6 o'clock.

On Friday evening, June 7, the members of the 4-S of the Rochester Reformed Church accompanied by other young people who have helped to make the 4-S minstrel such a success, met at Howard Anderson's garage, where they staged a surprise party for Henry Flynn and Robert Kelder, minstrel directors. The young people were anxious to show their appreciation to the two directors for the many hours of time and hard work they had given to the minstrel, so they chose to spoil a perfectly planned fishing trip to do so.

Messrs. Flynn and Kelder were garbed and ready to sport all the cuts in the Mohawk Creek, but alas, they had to be satisfied with a quiet evening of cards, dancing and refreshments. After the distribution of honors and gifts, and the appreciation of the young people extended to Mr. and Mrs. Howard Anderson for their genial hospitality, the fishing party continued on its way. After several hours of sport, they delivered the fish to Herman Gaylor in time for breakfast.

Jarvis Enderly is still confined to the Kingston Hospital, where he has undergone his second mastoid operation. We trust that he will soon be able to return home with his hearing restored.

Harry Oodington, who has been ill with quinsy some throat, is able to be back at work again.

Mrs. Peter Scott of Stone Ridge is employed at the home of Herman Gaylor, caring for Mrs. Carrie Smith

Mrs. Gaylor's mother. We trust that Mrs. Smith will soon be up and around again.

The Rev. and Mrs. S. L. Palmer of Kingston spent Sunday at the Reformed parsonage.

The minstrel presented by the 4-H at the Reformed Church Men's Club will be repeated at the Cottekill Church hall on Friday evening, June 14, at 7:30 o'clock standard time.

Mr. and Mrs. Gilbert Quick and Mr. and Mrs. William Feitman of Palatowen had dinner with Mr. and Mrs. Raymond Lawrence on Saturday evening.

Mrs. Edgar Van Vleet and Mrs. Minnie Lawrence took supper with Mr. and Mrs. Raymond Lawrence and Mrs. Phoebe Lawrence on Saturday evening.

Many people are attending and enjoying the evangelistic services held at the Methodist Church. On Thursday evening a negro quartet from Kingston will provide special music.

Mrs. Rorer Krom and Mrs. Rancus Smith spent Tuesday in Kingston.

Mrs. Jeanie Deper, who has been employed at Morris Cohen's, will return to her home in Mettachons on Tuesday.

NEW HURLEY

BARBARA BELL FASHION PATTERNS

Pattern No. 1612-B

Afternoon Dress with Circular Cape and Flounce

Soft, rather than frilly is the fashion dictate for women who prefer gracious lines to tricky details. It is often more flattering to conceal the lines of the figure by means of capes or draperies, or cleverly manipulated fullness, and today's dress achieves this deception effectively.

A circular cape, longer in the back than in the front, gives a graceful line to the bodice, and the same idea is carried out in the skirt, where a deep flounce is set in with an upward pointing line. The blouse is gathered on to a plain piece, appearing above the belt, giving an effect of length and elegance.

Barbara Bell Pattern No. 1612-B is designed in sizes 36, 38, 40, 42, 44, 46, 48, 50 and 52. Size 36 requires 2 1/2 yards of 36 inch material.

Fire Chief's Story
Kingston, N. C.—Fire Chief Junius Gray brought home a fish which he said he lassoed. His line looped as he cast into the Neuse river and a tug followed.

"I pulled in a croaker weighing about a pound," he said. "The line had caught it over the back fin."

Beat to Bench

New York—It was Decoration Day for police heroes and high officials were there to do them honor.

Police Commissioner Valentine interrupted the proceedings to read a general order. "Second Deputy Police Commissioner Vincent J. Sweeney is relieved of all duties on July 9 and will report to the mayor."

Sweeney had risen from the ranks, had even studied law to better his fine police record. The order was a shock to the department.

Then Mayor LaGuardia arose with a grin and added: "And on July 9 I will appoint Mr. Sweeney a city magistrate."

The new job will pay \$12,000 a year.

Bonner Springs, Kas.—Guards from the Kansas state penitentiary had little trouble capturing Alva Reed, trusty, after he had escaped.

He obligingly got himself stuck in a mudhole near here while trying to outdistance the guards.

Des Moines, Iowa—Carl F. Woolery sued his wife for divorce yesterday stating she was "a large woman weighing about 215 pounds" and that

1—She severely beat him with a beer bottle

2—She knocked him down with a heavy glass ash tray.

By way of emphasis, he added in his petition that she had "a very bad temper."

PARIS CHIEF SWEARS IN TWO WOMEN AS COPS

Paris (AP)—Madame Justice may not have the vote in France, but she can enforce the law.

France hopes she can, for the city of Paris has just sworn in the country's first policewomen.

They are Misses Simone Monvert and Bertha Rolland, rougess husky social service workers chosen by the director of municipal police to take care of women's and children's delinquencies but vested with full police powers.

Their uniform consists of broad brimmed hats, double-breasted jackets with the police insignia on the lapel, and long full skirt.

The police chief, admitting the costumes were not the most becoming Paris could have supplied to her first women police, commented only that "they're for policewomen, not mannequins."

NIAGARA HUDSON COKE

Everett & Treadwell Div. - Fri.-Sat., June 14-15

New Actors Join Veterans In Kidnap-Murder Drama

Chancellor Luther A. Campbell, center, highest judicial officer of the state of New Jersey, will preside over the court of errors and appeals, composed of 13 other judges, which will start deliberations June 26 in the appeal of Bruno Richard Hauptmann, sentenced to die for the kidnap-slaying of the Charles A. Lindbergh baby. The oral arguments will be brief but the justices have indicated they intend to spend the hot summer months studying minutely legal

intricacies of the long case. Attorney-General David T. Wilentz, left, leader of the prosecution, will continue to direct the state's legal forces in the appeal battle. Hauptmann, behind the bars, is seen conferring with one of his attorneys, C. Lloyd Fisher, who declares the carpenter's constitutional rights have been violated. He threatens to fight the appeal through to the United States Supreme Court if necessary.

Niagara Prepares For Record Season

OF all the scenic wonders with which nature has endowed this favored land of ours, none is comparable to Niagara. By common consent of travelers from all lands, it is the one spectacle that must be viewed before one can say he has seen America. With vacation time just around the corner, preparations are now being made to receive more guests than ever at this great scenic wonder.

One of the show places preparing for thousands of daily visitors is the famous Shredded Wheat Bakery, second only in importance to the Falls. Each day personally conducted parties will stream through the huge bakery. Almost without exception some member of the party expresses amazement at the spotless surroundings and scientific methods employed in con-

verting pure whole wheat into the delicious golden-brown biscuits, so familiar to millions of American homes.

The wheat is steam-cooked under pressure in big, sealed kettles—just so long, at just the right temperature. Then comes that interesting process of shredding the softened wheat grains and forming the biscuits.

The pans of biscuits on their "Ferris wheel" ride in the ovens are baked at exactly the right temperature, exactly the right number of minutes, and in due time come back to the oven door to be removed—crisp, fragrant, golden-brown and utterly tempting.

CONCRETE RESURFACING

lasts longer... costs less...

gives work to local labor

THE almost continuous repairing necessary to keep worn-out streets in passable condition is one of the biggest drains on public treasuries. Put an end to it. Tear up the old surface—if the foundation is good—cover it with modern Concrete.

Resurfacing with concrete is moderate in cost... gives employment to local labor... requires the minimum interruption of traffic and business. And no other pavement offers the safety, smooth riding and long lasting qualities of concrete.

Concrete is best for heavily-traveled thoroughfares or quiet residential streets. Insist on concrete. Ask for a free copy of "Salvaging Old Pavements with Concrete."

● HOW often there is some doubt about plans, appointments or what one should do—we hear people say:

"Did Sue mean she wanted us to visit her this week-end or next?"

"Will they be home if we take the trip tomorrow?"

"I wonder if it wouldn't be better

to telephone for reservations?"

All such doubts can be quickly settled by a telephone call.

It doesn't cost much, particularly if you call after 7:00 p.m. when Long Distance rates are generally reduced about 40%, on station-to-station calls. New York Telephone Company.

For rates to other points see the front page of your directory or ask the Long Distance operator. If you don't know the number information will gladly give it to you.

HOLLYWOOD SIGHTS AND SOUNDS

By ROBBIN COONS

HOLLYWOOD—It's an old story, but Hollywood always has a new version of it. It's the story of the money if it knew a way to keep it from happening, but so far Hollywood has found no means to stop it. A player comes here, is tried in a picture or two, and is dropped. Then in a little while—a year, or two, or three—the same player comes back, usually at a bigger salary, and makes a hit. Then Hollywood wishes it had kept the player under contract and let him make the hit earlier. But how is Hollywood to know?

Marshall Returns

Everett Marshall returns now heralded as a singing star. He was a singing star when he was here before, opposite Bebe Daniels in "Dixie" but Hollywood didn't keep him. There was a reason: "the musical time" was on his last legs at the time. There is a reason for his return: a new musical cycle, calling for trained voices, is here. Besides, they say Everett Marshall can act as well as sing.

Nico Martin's command of English was none too good on his first attempt at singing. They let him go. He is back now, with the added experience of opera and concert in this country, and he will be the star of his first new film.

Grace Moore's story, often told since her triumph, is a sort of composite of all the failures—first. Emphatically they did not want her when she left. More emphatically they want her now.

Experience Helps

Not a month passes but some fledgling star, held under contract for a long period without result on the screen, is released—only to pop up in the movie parade a bit later with a new contract, and often a hit role, at some other studio. Rochelle Hudson was groomed for good parts by two studios in turn only to be dropped. Now she is back at Fox, one of the two, getting better roles all the time. Helen Mack, June Lang, Maureen O'Sullivan, Julie Hayden, Martha Sleeper, Sally Eilers, Carole Lombard, any number of girls—and boys too—have career stories that are strikingly similar in this respect.

The studios, as a matter of fact, are not particularly concerned about these things. One reason they happen is that the girl or boy who "comes back" to make a hit after apparent failure has gained a lot of experience in the meantime. The talent that shines in the picture of today is not the same talent that was given its walking papers yesterday—at least, it isn't in most cases.

At The Theatres

PREVIEWED

Broadway: "The Flame Within". Ann Harding and Herbert Marshall prove to be an engaging romantic team in this story of a woman who untangles the lives of others and who is finally caught in the throes of a love she did not seek but whose power she cannot control. It is one of the best characterizations Miss Harding has given the screen and Mr. Marshall is excellent in a role which requires all his skill. Maureen O'Sullivan, Louis Hayward and Henry Stephenson are also well cast in featured parts and Edmund Goulding both wrote and directed the picture. An added feature of the Broadway program will be the stage presentation of the Cashion School of Dancing. Sixty Kingston youngsters will be seen in an elaborate revue with special lighting and scenic effects. Roger Baer will be at the organ.

Orpheum: "Our Daily Bread" and "Against the Law". King Vidor goes Socialistic in the opening attraction and shows what might happen in a desperate community if all work as a unit for the salvation of all.

Assistance Pact

Bucharest, Rumania, June 13 (AP)—A high Rumanian authority today confirmed a report that Rumania soon will come to terms with Soviet Russia in a mutual assistance pact.

F. D. R., AT WEST POINT, ASKS FOR 'PEACE'

Asserting the world's greatest need is "assurance of peace—an assurance based on mutual understandings and mutual regard," President Roosevelt addressed graduates of the U. S. Military Academy at West Point. Here is a general view during the President's address. (Associated Press Photo)

Killed Despite Pleas

Cecelia Venable (above), cafe entertainer, was shot to death in a Chicago hotel while she pleaded "Don't shoot any more—I'm hurt enough." Police sought Anthony Madona, gambler and wrestler. (Associated Press Photo)

The cow is the "foster mother" of the race. In addition to her own burden of bearing and nursing her young, she has carried and fed mankind from the cradle to the grave through the ages.

Quick! While strawberries are so cheap

MAKE STRAWBERRY JAM THIS EASY WAY

"JUST THINK! WITH CERTO YOU GET HALF AGAIN MORE GLASSES OF JAM OR JELLY!"

AND SEE HOW EASY IT IS!

4 cups prepared fruit
1/2 cup sugar
1/4 bottle Certo

To prepare fruit, grind about 2 quarts fully ripe berries or crush completely, one layer at a time, so that each berry is reduced to a pulp. Measure sugar and prepared fruit into large kettle, mix well, and bring to a full rolling boil over hottest fire. To reduce foaming, 1/4 teaspoon butter may be added. Stir constantly before and while boiling. Boil hard 3 minutes. Remove from fire and stir in Certo. Then stir and skim by turns for just 5 minutes to cool slightly, to prevent floating fruit. Pour quickly. Paraffin hot jam at once. Makes about 10 glasses (8 fluid ounces each).

Free!

89 TESTED RECIPES WITH EVERY BOTTLE

NOW is the time to make jam and jelly... while your grocer has such wonderful berry bargains! And since it's so easy to make them with Certo, why don't you put up a big supply... Why don't you start a jam cupboard; that will keep you supplied the whole year through?

Just read that recipe at the right... See for yourself how simple it is... how little time it takes, with Certo's extremely short boil. Why, you can make up several batches, in just no time at all!

MORE GLASSES, TOO!

Notice, too, how many glasses you get from such a small quantity of fruit... all because of Certo. You'll agree that it is amazing!

With Certo you never boil jellies more than 1/2 minute... jams only a little longer. The juice has no chance to boil away... That's why you get so much more jam or jelly than by the old, long-boil way—actually half-again more!

AND FAR FINER FLAVOR!

That's why, too, you get much finer flavor... all the flavor of the fresh ripe fruit. There is none of that "boiled down" taste.

Certo, the pure fruit pectin that makes jelly making so easy, is a product of General Foods. Get it at any grocer's.

Lights of New York

by L. L. STEVENSON

Sonny was the name given him at the shelter of the Society for the Prevention of Cruelty to Animals. That was just as good a name as any since, even after a week, he paid no attention to whatever he was called. As a matter of fact, he paid no attention to food, his surroundings, those who tried to be friends with him or anything else. Seemingly his whole world had come to an end when he had been placed in the society's ambulance. Before that, he had been a different dog. Indeed, then he had been a militant animal with hackles standing, fire in his eyes and long white fangs ready for use. Not that the world was his enemy. But he was guarding someone he loved deeply and when a big dog, mostly police, is guarding someone he loves, even policemen and firemen do not interfere. Instead, they summon an expert.

The call came to the society's hospital at about 4 a. m. William Ryan, an ambulance driver for the last 23 years, rubbed the sleep from his eyes, hurried outside, started the motor and sent the ambulance speeding toward East Eleventh street. The call had stated that a woman was lying in the driveway of an engine house in such a manner that the apparatus could not be moved without running over her and she could not be removed because a police dog refused to allow anyone to come near her. Since alarms are frequent down there, Ryan stepped on the gas harder than ever and within a few minutes, was at his destination.

One look at the dog told the experienced Ryan that it would be merely a waste of time to attempt to win its confidence or to catch it off its guard. So he got out his loop and soon had the dog in the ambulance. Then the police and firemen attempted to revive the woman. Their efforts were fruitless and Ryan went back to the ambulance. All the fight had gone out of the dog that was to become Sonny. He was whimpering in a corner as if in some way the fact had been communicated to him that the one he had been guarding so valiantly was dead.

So Sonny went to the shelter and the one he loved went to the morgue. Her purse and her clothing yielding no clues, she was listed as "unidentified" and a description was sent out. Days passed and none who went by the slabs recognized her. Meanwhile, though given every attention, Sonny continued to droop. Then something happened. Two young girls came to the shelter. They had been there before and were looked on merely as visitors. But when Sonny saw them, he went wild. His demonstrations attracted the attention of the girls and they broke into tears.

Eventually, the story was learned. The older girl is a hat check girl in a Yonkers restaurant. Her duties keep her out late at night so her mother always met her at the subway station and took her home. Accompanied by the dog, the mother felt entirely safe. The daughter, surprised at not finding her mother in the usual place, went on home without knowing that sudden death had prevented the mother from keeping the appointment.

When the mother did not appear, the two girls appealed to the police. But there had been some slip up since the description the police had of the woman in the morgue did not check with that given by the girls. So the girls called various hospitals. Then, in a last hope, they went to the Society for the Prevention of Cruelty to animals. Strange and shy, they asked no questions with the result that they did not see Sonny until their third visit. So Sonny, not only stood guard but solved a mystery.

After all these years, what a reporter I've turned out to be! Sonny's story so interested me that I failed to learn his real name.

With the routing out of concealment under it, now it seems that there is an excellent prospect of the disappearance of what has often been called "the ugliest structure in New York"—the Manhattan extension of the Brooklyn bridge. According to word from the department of plants and structures, the extension will be razed as soon as the elevated lines using it can change their tracks and signals. Also Brooklyn bridge may be modernized so that eight lanes of traffic can be accommodated, the plans having already been drawn.

Fireworks Producer Looks for Big Year

Saint John, N. B.—The year 1935 will be a "boom" year, T. W. Hand, Canada's foremost "fireworks man," believes.

Although his efforts have gone up to smoke for 47 years, Hand is an optimist. He manufactures most of the booming crackers and whistling rockets which, Canada alone, let loose at diverse national, regional and local celebrations.

"The year 1935 will be one of the biggest celebration years in the last thirty," he predicts. "The king's silver jubilee celebrations in Canada, plus annual fairs and exhibitions, will set a record for illuminated shows this year."

Mother and Daughter Banquet at Y. W. C. A.

Members of the Tri-Hi and Live Y'er Clubs of the Y. W. C. A. entertained their mothers at a mother and daughter banquet on Tuesday evening at 6 o'clock. The supper was attended by more than 80 members and guests and was a very delightful affair. The decorations of blue and yellow carried out a Dutch theme, the favors being paper windmills with paper tulips used in the table scheme.

The program included three skits by club members, "In a Taxi" by Miss Christabel Murphy and Charlotte Haines; "Very Busy" by Miss Ethel Stork and Miss Ruth McCausland; and "The Proposal" by Miss Priscilla Nolan and Miss Evelyn Olivet.

Miss Harriet St. John, president of the Tri-Hi Club, presided, and welcomed the mothers while Mrs. Raymond Rignall played for the club songs.

The affair closed with the "ring ceremony" when the Girl Reserve ring was awarded to the following for excellent service and records for the past two years: Misses Dorothy Wood, Christobel Murphy, Dorothy Eymann, Priscilla Nolan, Dorothy Davis, Ruth McCausland, Eleanor Gerhardt, Ethel Stork, Charlotte Haines, Jean Eaton, Evelyn Olivet, Marjorie Tease. Rings were also awarded to the following advisers for special service to the clubs: Mrs. Kenneth Parish, Mrs. Raymond Rignall, and Miss Ottilia Riccobono.

Credits for excellent first-year records were awarded to: Misses Marjorie Bartlett, Ruth Brinnier, Ruth Britt, Elsie Buchanan, Gertrude Chamberlain, Emily Cragin, Jean DuBois, Helen Flicker, Eleanor Franz, Shirley Goodsell, Lillian Gregg, Helen Hizen, Phyllis Kellerman, Helen Kennedy, Edith Robinson, Alice Smith, Cornelia Smith, Edna Webster, Winona Watrous, Mary Van Valkenburg, Shirley Snyder, Edith Cook.

Mrs. A. Noble Graham, Girl Reserve chairman, and Miss Lillian Herdman, Girl Reserve secretary, presided at the ceremonial.

The death rate in 1934, among the general population of the United States, appears to have registered an increase of 2 1/2 per cent as compared with the record for 1933, according to statisticians of the Metropolitan Life Insurance Company.

No More Piles

Doctor's Prescription Guaranteed

Thousands of Pile sufferers do not know that the cause of Piles is internal—bad circulation of blood in the lower bowel. This is the scientific truth about Piles—the real reason why salves and suppositories do not give lasting relief, why cutting does not remove the cause.

Your itching, bleeding, or protruding Piles will only go when you actually remove the cause. External treatments can't do this—an internal medicine should be used. HEM-ROID, the prescription of Dr. J. S. Leonhardt, sold by good druggists everywhere, succeeds because it stimulates the circulation, drives out congested blood, heals and restores the affected parts.

So why waste time on external remedies or worry about an operation when McBride Drug Stores invite every Pile sufferer to try HEM-ROID with guarantee of money back if not joyfully satisfied with the help one bottle gives.—Adv.

Raccoon's Feet Are Like Human Foot; Likes Fight

The raccoon comes from a winter sleep when other wild life begins to stir. And he is as thin and "hungry as a bear," for he is a relative of the bear. His baby-foot tracks may be found in the mud along streams; there is his hunting ground.

Crayfish, frogs, fish, snakes, small turtles, and mussels make up his early season diet. Fruit, corn, wild birds, and the farmer's poultry follow in season. The 'coon lives along some stream where he may handily dip his food in water, as if to wash it clean before eating it.

Coonskin coats are popular, and so the raccoon is much hunted for his beautiful fur.

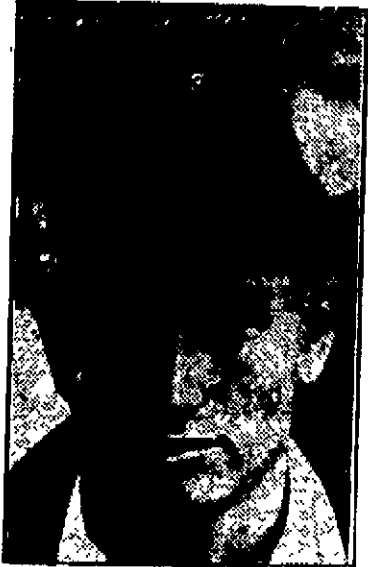

He is clever in his ways, and quite tame. Woe betide the dog that expects to master him without a fierce struggle! The two black eyes of Brother Coon are proof enough that he enjoys a free-for-all.

The raccoon's feet are humanlike. He can climb like a monkey, and he can grasp a roasting ear with the best of us.—Indianapolis News.

Early Traveling Carnivals

It is recorded that during Colonial days several English showmen brought small troupes to the United States. Among the first was Ricketts' circus, which was exhibited in the Greenwich theater near the battery, New York, in 1734. Probably the first American-born showman of mention was Rufus Welch. In November, 1828, the Mt. Pitt circus opened on Broome street, New York, in a building seating 3,500 persons and said at that time to be the largest place of amusement in America. L. B. Lent's New York circus toured under the canvas during the summer months of the 60s and early 70s, his being the first show of size to travel by rail.

We have heard a great deal about the "horse and buggy" age of late. The expression has been used, of course, principally in the economic sense. But taking it literally and physically we were in the horse and buggy age so far as individual travel was concerned until the day of the present generation.

First Homestead Entry
The original homestead law was approved Mar. 20, 1902, by President Abraham Lincoln, to become effective January 1, 1903. On the latter date the first homestead entry was made at the Brownville (Neb.) land office by Daniel Freeman for the 2 1/2, NW 1/4, NE 1/4, NW 1/4, and SW 1/4, NE 1/4, Sec. 26, T. 4N., R. 5E., 6th P. M., Nebraska, containing 190 acres. The application was numbered one. Final proof on the entry was offered January 20, 1903, and final certificate issued on the same day. The entry was patented September 1, 1908.

Big Increase in Production and Marketing of Cotton in Brazil

While the United States has been reducing its cotton acreage in an effort to boost prices to a profitable point, Brazil has turned to the fibre as a substitute for the dwindling demand for its coffee, its chief staple. The photograph shows a young mountain of the "white gold" stacked at a Brazilian port for shipment to Europe.

The chart, prepared by The Associated Press from data compiled by the Brazilian ministries of agriculture and foreign affairs at Rio de Janeiro, shows tremendous rises in both the production and marketing of cotton in that country since 1932. With overproduction making coffee more of a burden than an asset to the nation, both the government and commercial circles are uniting in a drive to extend the demand for Brazil's "white gold."

Humble cabins like this which dot the cotton growing sections down in Dixie must meet a new challenge for American supremacy in the world's cotton markets. Brazil, sensing the need of a product to supplement her dwindling coffee income, has taken up cotton growing in a big way and is expanding her fields and sales abroad rapidly.

Prison Glee Club Broadcasts Tonight

Tonight at 8 o'clock, over Station WABC, on Kate Smith's hour, the Walkkill Prison Glee Club will broadcast under the direction of Harry Malsenholder, Kingston musician, who organized the group and trained it for the occasion.

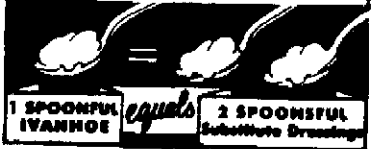

Mr. Malsenholder has arranged a fine program for the broadcast, which will be the first of its kind ever sent over the air from a penal institution. Besides the Glee Club the prison orchestra will play several selections.

As far as known, the Walkkill Glee Club is the first ever organized in a prison. At a recent concert, the singers made an excellent impression on music critics invited to hear them, and Dr. Leo J. Palmer, superintendent of the prison, was the recipient of many favorable and encouraging comments concerning his program along the lines of rehabilitation.

Another feature on the same hour tonight will be an interview between Alabama Pitts, recently banned from organized baseball because of his prison record, and Johnny Evers of the Albany baseball team.

AMERICAN JOURNALIST
ORDERED OUT OF ITALY

Rome, June 13 (AP).—The Italian government press bureau today expelled David Darrah, the Rome correspondent of the Chicago Tribune. Darrah and his wife were forced to leave immediately.

The reason for Darrah's expulsion was given as the writing of anti-Italian articles. It was said that Darrah had attacked the financial structure of the country and the allegiance of the people to the Fascist regime.

The correspondent's expulsion came shortly after the press bureau had banned the New York Times from entering Italy owing to a displeasing editorial entitled "Baldwin and Mussolini."

Darrah is the fourth foreign correspondent to be expelled from Italy since March, the others being two Germans and an Austrian.

The Foreign Press Association, the local organization of foreign newspapermen accredited here, has the matter under advisement.

The editorial which brought about the ruling against the Times was printed after recent speeches of Prime Minister Stanley Baldwin of Great Britain and Premier Benito Mussolini of Italy. The order did not specify the period during which the Times will be barred. It merely stated that the newspaper was to be forbidden entrance until further notice.

No More Merry Dancing
on Old Avignon Bridge

Old Avignon in France is famed as the City of the Popes, notes a writer in the Boston Globe. On a hill dominating the city stands the Papal palace, where for over 70 years popes held court and all Europe came in pilgrimages, filling the city with dancing, festivals and processions. Built as a great fortress, the palace was nevertheless elaborately furnished. After the popes returned to Rome, however, it suffered many vicissitudes, even serving one time as barracks.

The famous bridge of Avignon, on which the old folk song says the people used to dance, has fared even worse. It has been in ruins for 250 years, and its crumbling arches now reach only about half way across the Rhone.

Side by side with its palaces and its ruins, Avignon carries on its daily life and sports, most famous of which are the plucking of the coquerie, a bloodless variation of the bull fight. Instead of killing the bull, the matador must manage to jab the animal with a stick, on the end of which is the coquerie, a rosette decorated with ribbons. Then the object of the game becomes the snatching of the rosette from the bull's shoulder without being hurt.

PASTOR AIMS TO SAVE GABLE

Hope that Clark Gable (left) might be led from a "sinful life" into the field of evangelism prompted the Rev. Samuel Williams (right) to journey from Hopedale, O., to Hollywood. Meanwhile the handsome screen star, who hails from Cadiz, O., was "on location" at Santa Catalina Island and the reformation project had to be postponed. The Rev. Mr. Williams recently held a public prayer meeting for Gable. (Associated Press Photos)

'It's A Pipe'

Margaret Sherwood is illustrating an old custom at the University of Kansas. At graduation time, coeds put all their grievances—figuratively—in a corn-cob pipe and smoke them away, leaving the aims matter in perfect harmony and with a big headache. (Associated Press Photo)

Wed At Reno

Pearl Buck, famous author, and Richard J. Walsh were married at Reno, Nev., a few hours after their previous marriages were dissolved. Walsh's new and former wives lived together while their divorces were pending. (Associated Press Photos)

Next Tax Installment.

Albany, N. Y., June 13 (AP).—The 90,000 New Yorkers who elected to pay their income tax in installments were warned today that the second payment is due on or before next Saturday. Deputy Commissioner Cortland A. Wilber said that \$4,500,000 should be added to the state treasury when the time expires. Under the installment plan, one half of the normal tax was payable last April 15, one quarter by next Saturday and the remaining one quarter on or before October 15.

2 Aviators Killed

Berre, France, June 13 (AP).—Two military aviators were killed and one escaped today when a seaplane burst into flames as it was landing in the harbor of this airbase near Marseilles.

Free speech isn't enough for a lot of so-called liberals. They also want the other fellow to be compelled to stop and listen to them.

TRINITY LUTHERAN CHURCH
TO HOLD OUTING JUNE 23

At the joint meeting of the uptown and downtown circles of the Ladies' Aid of Trinity Lutheran Church last night it was decided to hold an outing of both circles at Mrs. Carl Volser's at Ulster Park on Wednesday, June 26, and have dinner there. The bus will leave the church at 10:30 in the morning.

A good time is looked forward to, since both circles have been actively

interested in the welfare of the church the past winter.

All members desiring to attend the outing will kindly notify Mrs. Harry P. Dodge or Mrs. William H. Pretzsch, no later than Sunday, June 23.

School boards of the country were urged to include instruction in the proper use of cosmetics as part of the regular high school curriculum in a resolution passed at a meeting of the National Beauty Institute held in New York city.

FINANCIAL AND COMMERCIAL

By CLAUDE E. JAGGER

New York, June 13 (AP)—Scattered firm spots in today's stock market tended to offset profit taking in various issues, but the list, on the whole, was unable to establish a definite trend.

Little stimulating news appeared from any direction. It was noted, however, that most equity holders were not in a mood to liquidate while, at the same time, potential buyers were extremely timid in raising their bids. Continued investment demand was cited as the most sustaining factor.

Small advances were registered by shares of McKeesport Tin Plate, Santa Fe, N. Y. Central, Consolidated Gas, Public Service of New Jersey, Chrysler, Bethlehem Steel, General Electric, Standard Oil of New Jersey and American Smelting.

On the other hand, Postal Telegraph Preferred lost more than 2 points as it was reported a recapitalization plan might be considered by the Postal directors at tomorrow's meeting. Others, off fractionally, included American Telephone, Allied Chemical, U. S. Steel, Westinghouse, Safeway Stores, Monsanto Chemical, Cerro de Pasco and U. S. Smelting.

Quotations given by Parker, McElroy & Co., members, N. Y. Stock Exchange, 120 Broadway, New York city; branch office, 282 Wall street.

Quotations at 2 o'clock.

Beer Licenses Must Be Renewed by July 1 Elaborate Revue At Broadway Theatre

Albany, N. Y., June 13 (AP)—New York state beer licensees were warned today that they will be forbidden to sell the beverage after July 1, unless they obtain renewals.

With fewer than 1,000 of the 27,000 licensed establishments in the state having applied for renewal of permits, the state liquor authority said that "under no circumstances will any extension be granted beyond July 1."

Officials explained that at least a week is required to issue the licenses after applications are received.

Headquarters in New York, Albany and Buffalo are renewing the permits this year.

Parent-Teacher Associations

Mt. Marion

On Tuesday, June 11, the Mt. Marion Parent-Teacher Association held its meeting for the installation of officers.

Mrs. Ella Eason, county chairman of parent education, spoke briefly on the topic "P-T-A. We're All For It."

Mrs. Eason then gave the "charge" to the newly elected officers and declared them duly installed. Those installed as officers were as follows: President, Mrs. William Myers; vice president, Mrs. Joseph Young; secretary, Mrs. John Dedrick; treasurer, Carl Courson; historian, Mrs. Victoria Maroon.

Mrs. Myers then announced her committee for the coming year and also stated that the first named member of each committee was chairman of said committee and responsible for its workings. The committees read as follows: Membership, Mrs. H. C. Finger, chairman; Mrs. Fred Osterhout, Mrs. John Branch, Mrs. John Plass, Program, Mrs. Warren Myers, chairman; Mrs. William Werner, Mrs. Victoria Maroon, Child welfare, Mrs. John Dedrick, chairman; Mrs. Arthur Harder, Mrs. Joseph Young, Mrs. Pritchard, Ways and means, Mrs. George Gillison, chairman; Mrs. Frank Hill, Carl Courson, Magazine, Mrs. Dorothy Briggs, Press, Mrs. Abram Bogert.

The meeting was then adjourned and cake and punch served and a social hour enjoyed by all. There were 14 members and three visitors present.

Census figures show that the products of New York's clothing factories in 1935 had a gross value of \$221,031,250.

That "brain wash," discovered by physicians as a cure for certain physical diseases, might clean up our thinking, too.

OLD TIME WHALERS GIVE WAY TO STEAM

Modern Methods Easier, but Risk Still Remains.

Seattle, Wash.—The old whaling vessels, huge and cumbersome, carrying a nest of small boats to search out and kill the whales, as well as all necessary implements for "trying out" the blubber, have all but disappeared from the famous whaling grounds in the Bering sea. Still common in antarctic waters, they are seldom seen in waters about the Aleutian Islands. In their place have come small, snub-nosed "steam whalers."

Fourteen of these modern ships are roaming the cold Bering sea. With a 200 ton gross displacement, each carries a 500-hp gun mounted on a high and flaring bow. No more, do men row away from the motor ship in search of whales; with the modern gun and high speed, each vessel seeks out its own whales and shoots the harpoon from the bow gun.

The gun throws the harpoon, four feet in length and weighing a hundred pounds, from 30 to 40 yards. Behind the barb of the harpoon is a cap, containing a charge of explosives timed to go off three seconds after the harpoon has struck. The whales do not often run with these appliances; the "strike" is usually fatal.

Processed on Shore.

One of the great dangers of the older methods of whaling was that of fire. The blubber was "tried out" or cooked down, in great kettles carried aboard the ship. The crews turned from hunters to butchers and "cooks," and the whale was reduced to oil and whalebone aboard the ship, to the accompaniment of an unholy odor and the constant danger that one of the cooking fires might get out of control and destroy the vessel.

Under modern methods factories for processing the whales are established on shore near the whaling areas. When a whale is killed it is inflated with air and marked with a flag. After the day's catch is completed the dead whales are gathered up and towed to shore, where the factory carries on the oil producing processes with a much greater efficiency than was possible under the old methods.

It's Still Dangerous.

Not all the danger and the excitement has gone, though, from the actual killing of the whale. So testified Capt. Peder Oness of Kodiak, master, and gun man of one of the Bering sea whalers, when he said:

"It's just as dangerous as it used to be. Nobody has an easy time standing on the deck beside the gun, in a heavy sea—and the gales are bad off the Aleutian Islands. The whale tips up for as long as you can say 'scat' and you are supposed to shoot him now. That is hard to do."

But the Bering sea whalers were jubilant as they started out this year. Prices on whale oil were double what they were last year and the prospects for a large catch were good. Best quality oil is used for soap making, while sperm oil, which comes from the head cavities of certain types of whale, is used in perfumes and medicines.

Only one company, that of William Schupp, known as the "whale king of the Pacific," operates in the Pacific whaling industry. The company operates seven boats from Seattle and seven from Canadian ports. Last year they got 814 whales.

Wales Proves to Youth He's Really a Prince

Vienna.—The prince of Wales sent a magnificent toy railway and a personal card to little George Schmid, living in the Vienna Karl Marx Hof, and proved himself a prince.

When the prince of Wales was in Vienna he visited a number of workmen's apartment-houses, among them the Karl Marx Hof, the headquarters of the Socialist Schutzbund during the revolution of February, 1934. On his rounds he came to the kindergarten, in which little George, son of an unemployed man, was playing with other children.

"Get up and make your bow to the prince," the boy was told.

Little George, however, replied with the self-assurance of his five years. "This isn't a prince, for he hasn't a crown."

The heir to the British throne didn't forget the only person who doubted his identity in Vienna.

Little George believes now in the genuineness of the visitor.

Liberty Statue to Have Birthday Party in 1936

Washington.—American citizens have been invited by the national park service to participate next year in a program which will mark the fifteenth anniversary of the Statue of Liberty.

The monument was unveiled on October 23, 1920. The nation shared in the ceremonies.

The park service has requested that everyone interested in the semi-centennial celebration assist in locating and assembling poems and pictures of the statue which were published at the time France presented the memorial.

It was pointed out that many of these pictures and illustrated accounts were striking and artistic, lending themselves admirably to effective reproduction.

Authors who wrote poems during the dedicatory period included: John Greenleaf Whitman, Ella Wheeler Wilcox, E. C. Stebbins, Charles Burdard, Esther Singleton, John J. Garbutt, and Jay Herbert Plummer.

Notes and Deaths.

New York, June 13 (AP)—In referring to a social event to be held tonight the society editor of a New York daily today lists four of the guests as follows: "The Merritts" (Grace Reilly) Roosevelt and the James (Blue Eagle) Roosevelt.

Testimonial Dinner for Mr. and Mrs. Merritt

Arrangements have been completed for a testimonial dinner on July 1 for Mr. and Mrs. Harry B. Merritt at the King Crown Inn on Washington avenue, which is being enlarged. The dinner will start at 7.30. Among those present in honor of Mr. and Mrs. Merritt will be prominent business and professional men and city officials.

William B. Martin, of the Kingston Print Shop, in charge of arrangements said, "We expect to have a capacity crowd to mark the opening of this new restaurant in our section of Kingston and plan to give due credit for the development of this part of the city to Mr. and Mrs. Merritt, whose store has gained us so much prominence and brought so much business."

"We have arranged for committees for this event and are assured that the mayor and the heads of the various city departments as well as representatives of several business organizations in the city will attend together with the employees of the Merritt store and the people of this section."

"We feel that the members of Excelsior Hose Co. and the various business interests of the city will join us," continued Mr. Martin, who is foreman of the fire company, "in honoring the people who have done so much for the development of this end of Kingston and also assist us in opening this new restaurant in our section."

In his print shop this morning, Mr. Martin proudly displayed copy for the testimonial dinner invitations it read, "Testimonial Dinner for Mr. and Mrs. Harry B. Merritt. To the man who beat the depression, the originator of Kash and Karry Twins, the constant dispenser of bargains to the masses. He placed Higginsville on the map."

Started Era of Craft.

After the Civil war, carpetbaggers, scoundrels and negroes secured control of the legislatures of many southern states and started the greatest era of graft and corruption in American history, writes W. H. Fackenthal, Easton, Pa., in Collier's Weekly. In the legislature of South Carolina, for example, money was widely spent for such "supplies" as champagne, feather beds, gold watches and perfume. The classic appropriation, however, was \$1,000 to reimburse the speaker for money lost on a horse race.

Jack Dodge Hurls Dairymen To 7-2 Victory Over N.R.S.C.

Jones' Dairymen defeated the North Rondout Social Club at the Athletic Field, Wednesday evening, and in doing so elevated themselves a notch in the standing of the clubs and now have an outside chance of coping the first half of the City League. After being on the short end of the score in their previous meetings with the Rondouters the Dairymen finally came out on the long end in a decisive 7-2 victory.

Jack Dodge, who has been pitching in hard luck and has been beaten out in some close battles in the circuit this season, was the chief factor in the win. He kept five hits well spaced, not allowing more than one in an inning, and was master of the situation at all times. He had hooks that baffled the opposition throughout the game.

The Dairymen, who are supposed to be weak with the willow, showed some life in the hitting department and blasted Julius Chick's offerings for nine safe blows. Wait Gadd showed the way with a triple and two singles.

Chick didn't seem to have his usual stuff, especially in the second and fourth innings. He tightened up in the latter innings and before the game closed added nine strikeouts to his long string.

The Rondouters scored first, putting a run over in their half of the first inning. Mitchell received a pass, stole second and went to third on Turk's infield hit. Dodge tossed to Scherer to catch Turk napping and Scherer obliged by dropping the ball to let Mitchell tally.

The Dairymen wiped out the lead in the second inning by forging ahead with a four-run rally, which proved enough to win. Nardi gave the Dairymen their opportunity by fumbling Geisler's grounder. Murdoch also hit at Nardi and the ball took a bad hop over his shoulder. Gadd's triple sent both runners home and he scored a moment later on Scherer's single. Scherer stole second and went home when Tiano threw over Turk's head in trying to catch Scherer who was headed for another stolen base.

Gadd got an infield hit in the fourth inning and pulled up at second when Turk tossed the hit over Komosa's head. Dodge drove him home with another single. A walk to Lamb and a single by Purvis, coupled with a lot of wild throwing by the Rondouters, gave the Dairymen two more runs in the sixth.

Gadd put the Rondouters in scoring position in the fifth by throwing Nardi's grounder far past Scherer. Nardi went to second on the play and romped home when Chick doubled to right field.

The only difference between the six clubs in the loop now is one game. Anything is liable to happen.

Dodge had the batters popping all night. Dullin, Dairymen's catcher, managed to nab three of the pops.

Wait Gadd came near collecting the case of Burgomaster donated by Fitzgerald Bros. Home runs are scarce this season.

The game was started on time and completed without any time out, the sun failing to bother the players.

Comforters Lose to Port Ewen Softballers

Wednesday night at Hasbrouck Park, the Comforter softball team lost its first league game to the Port Ewen representatives, 16-6. Scoring eight runs in the fourth inning, the Port Eweners changed what was to that point a close game, into a rout. Chip Rhymmer and Ed Myers featured with several nice running catches for the Comforters but the Kingstonians were unable to effectively hit the pitching of Ernie Best. Gordon Craig tossed for the Comforters and would have fared better but his support faltered, making eight errors. Elsbey and Kennedy shared the catching assignment.

Friday night, at the Fair Grounds, the Comforters will play the Kaplans. All Comforters will meet at the church hall at 6.

HELEN WILLIS MOODY HAS WON EIGHT STRAIGHT SO FAR.

London, June 12 (AP).—Having won eight straight victories in her comeback campaign, Helen Willis Moody took today off while Katherine Stammer and Elleen Bennett Whiddingshall, high ranking British players, battled for the right to meet the Californian in the semi-finals of the Kent championships. Mrs. Moody gave further evidence of the return of the magic to her racket yesterday in losing only three games to Nancy Lyle, sixth ranking British player, as she advanced to the semi-finals with a 6-1, 6-2 victory. She will meet tomorrow either Miss Stammers or Mrs. Whiddingshall, ranked No. 3 and No. 5 nationally. If successful she probably will clash in the finals with Dorothy Round, Great Britain's No. 1 player.

Experts Figure Baer Will Win Fight Tonight By Early Knockout

By ALAN GOULD
Associated Press Sports Editor
New York, June 13 (AP).—James J. (Long Shot) Braddock will get the opportunity tonight to spring one of the greatest fistic upsets of all time when he battles the clouting Californian, Max Baer, for the heavyweight championship of the world.

The weather outlook was not much brighter, however, than the prospects for the gallant but lightly regarded challenger from New Jersey. Braddock was on the short end of 5 to 1 odds that seemed certain to lengthen by the time the clans gather around the ringside and the weather man predicted "occasional showers" during the day. The title card will be postponed until Friday night if there is too much rain.

At least nine of every ten customers willing to pay from \$2 to \$20 for eyewitness privileges in Madison Square Garden's sprawling open-air arena on Long Island planned to cheer the underdog enthusiastically regardless of the prospect that they will see him soundly whipped.

Small Crowd Expected
They may rattle around the bowl a bit, these fans, for it seemed unlikely there would be more than 35,000 spectators in an arena built to handle more than twice that number. But they promised to give the challenger all the vocal encouragement possible.

Apparently nine out of every nine fight experts figure Braddock to have no more than an outside chance of escaping an early knockout. All have conceded Jimmy's improvement, his courage under fire and the intensity of his preparation to achieve the fistic goal of a lifetime. Critics and fans alike have had their imagination captured by Braddock's uphill battle to achieve the heavyweight heights.

Perhaps it would be a miracle for Braddock to win, but it's been done by long-shots in every sport. Even Man O' War was beaten once. Sam Parks, a 50 to 1 shot, came through to capture the national open golf crown only last week.

Favorites Who Have Lost
John L. Sullivan was a 4 to 1 favorite the day he lost the heavy-

weight championship to James J. Corbett. The fight world was shocked when Jack Dempsey, a 3 to 1 choice, was beaten for the first time by Gene Tunney.

Braddock can win, therefore, but with what? Raw courage alone can't save him from the champion's withering blasts. The roar of the crowd can't keep him on his feet if he runs into Baer's bombardment too often. Determination and ambition, born of necessity, don't furnish the answer to a smashing right-hand wallop to the chin. Braddock can "take it," but so can Baer. Braddock can punch, but not with the speed or the ferocity of the champion. Braddock can win, but how?

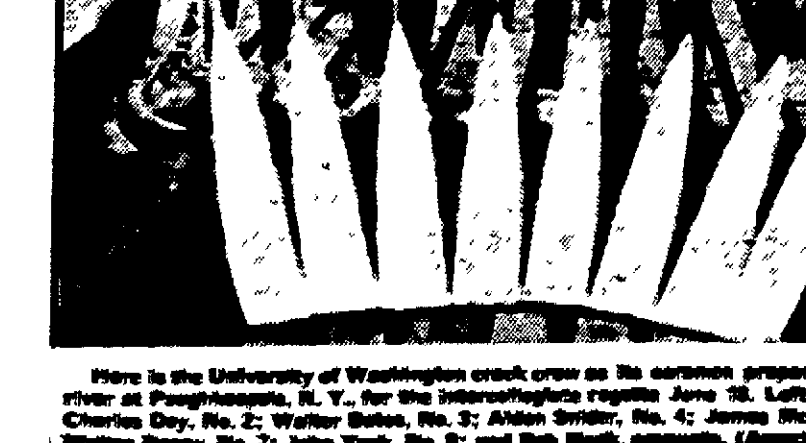

Braddock's Only Chance
The challenger's only chance, it seems, depends upon an unexpected opening early in the fight or a flash of carelessness by the champion. They both have the same weapons but Baer's are the sharpest and most explosive.

The champion won't have the crowd with him—unless they are yelling "for the kill" after the fashion typical of American fight crowds—but he will have the speed, the strength and the power to achieve his objective, an early knockout. Champion and challenger weigh in this afternoon at one o'clock (eastern standard time) at the state athletic commission office. Gates to the Garden Bowl open at 5 p. m. and the main bout, slated for 15 rounds or less, goes on at 9 p. m. E.S.T. The fight will be broadcast over a nationwide (NBC) hookup.

Wilbur Dodgers Play Maplecrest on Friday
The Wilbur Dodgers will play their first game off their own diamond this season, on Friday afternoon, when they will travel to Maplecrest to cross bats with the Maplecrest Club.

The Dodgers will use the following lineup: Kelder, 2b; Wenzel, ss; Conlon, 3b; McLean, cf; Jensen, rf; Cragan, 1b; Tiano, lf; H. Wenzel, c; Davis, p; Fitzpatrick, p; Jerry Diers, rf.

For Maplecrest, Mackey will be in the box, with Benjamin doing the catching.

Orioles "Wash Out" Broadway Grill Team

The Kingston Orioles, formerly known as the Dishwashers, evidently haven't lost their washing ability through their change of name, for they completely washed out the Broadway Grill boys in their game at Block Park Wednesday evening, the final score being 14 to 4. The Orioles did some hefty hitting behind great pitching by Hank Houghtaling. Batteries were: Orioles—Houghtaling and Maines; Broadway Grill—Spader, Utley and Wolf.

The Orioles announce that they are now ready to take on the P. N. A. any time the latter want to play.

STANDINGS

(By The Associated Press)

It appears unlikely that the Athletics will cut much of a figure in the American League pennant race, but if they can keep going at anything like their current pace it will be hard to hold them down in the second division.

When Connie Mack took Jimmie Foxx from behind the plate to get the star slugger's steady influence back into the infield on May 25, the A's had a .308 average. Since then they've marked up 12 victories against seven defeats—a .632 clip. They raised their average to .444 after yesterday's third straight triumph over the Indians and cut Washington's sixth-place margin to a half game.

The A's had to overcome a bad start yesterday, Al Benton giving the Indians three runs in the first inning when Hal Trosky belted his ninth homer of the season, but they chased Mel Harder to the showers in the seventh and won 7 to 5. Earl Averill and O'Dell Hale of the Indians and Wally Moses of the A's also hit homers.

Washington took a 7 to 2 drubbing from the White Sox, who did some heavy stickwork behind Ted Lyons' five-hit flinging. The Sox gained a half game on the league-leading Yankees, who could get no better than an even break with the home run-hitting Browns. The Yanks won the opener 11 to 4 for Lefty Gomez despite two circuit swats by Julius (Moose) Solters, but his third, plus one by Ed Coleman with two aboard, proved too much in the after piece and St. Louis pulled out a 7-6 decision.

Schoolboy Rowe Celebrated
With "Pop"—formerly "Schoolboy"—Rowe celebrating the increase in his family by pitching a three-hit game, the Tigers registered the day's biggest gain. They hopped from fifth place past Boston and Cleveland into third with a 4 to 1 triumph over the Red Sox.

The Cardinals produced the day's only change in the National League standing, regaining their undisputed hold on second place by winning two games from the Braves while the Pirates were taking one from Brooklyn.

Boston fought well before going down 5 to 6 and 5 to 4. Dizzy Dean, who answered a hurry call to rescue Ed Huesner after the Braves had knotted the count in the eighth inning of the opener, got credit for his eighth victory when Terry Moore singled with the bases full in the ninth. A four-run assault upon Fred Frankhouse in the sixth settled the second game.

The Pirates plastered Emil Leonard and Johnny Babich for five runs in the seventh to come from behind and beat the Dodgers 7 to 3. With Carl Hubbell pitching a steady game and Mel Ott belting his eleventh homer to recapture the National League lead, the league-leading Giants had little trouble trouncing Cincinnati 10 to 4.

The Cubs and Phillies hit one another with everything in sight and wound up with an even break in a twin bill, Chicago taking the opener 15 to 0 behind Larry French's five hit elbowing and Philadelphia the nightcap 11 to 8. Chuck Klein capped individual honors with three home runs, two in the second game.

Middletown High Wins From Ellenville

Warne pitched a one-hit game Tuesday afternoon as Middletown High School defeated the Ellenville High School boys by a score of 10 to 3. The hit was a double to left by Wenig of the Ellenville team, after Warne had walked Smith and Van Wagner in the first inning. Smith was out on a fielder's choice, but Van Wagner scored. Later Irwin and Wenig scored on two wild pitches. After the first inning but two Ellenville men reached second base. Middletown made ten hits off Decker, the Ellenville pitcher.

HOBBART COLLEGE FRESHMEN MADE GREAT RECORD IN SPORTS
Hobart College followers are proud of the records made by three freshmen teams the past year and are expecting great things of them next season.

In football the yearlings were undefeated and had but one touchdown scored against them—by Dickinson in their first game. They lost but one basketball game and that their first, by one point, against the University of Rochester. In lacrosse they were undefeated and had but one point scored against them—by the Syracuse University freshmen.

Even at that we would rather trust a statesman who gets famous by writing patent medicine testimonials for publication than one who wins success by promising lower taxes and give the poor more public money.

Sheepdog Walks Like Bear

An old English sheepdog is a sight anywhere, but once this dog standing 22 inches or so from the ground, is seen, it can never be forgotten, nor its ambling, bear-like walk, writes Ruth Mansfield in the Washington Post. The outstanding characteristic is the profuse, shaggy coat of gray, grizzle, blue or bluish, with or without white markings. The eyes, beneath shaggy hair are dark, although the most coveted among breeders are dogs with one wall eye and one dark brown eye. The skull is large, rather squarely formed the whole well covered with hair. The nose is always black and large, with the ears are small and carried flat to the side of the head. The tail is minus, either naturally or by docking. The whole appearance of the old English sheepdog is for rugged compactness.

"Fake" Eve

For years the "torib" of Eve, the progenitor of mankind, stood in a graveyard outside of Jericho, Arabia. The fact that it was 500 feet long and 40 feet wide, and that Eve would answer any question—through a tube—for a small fee, never taxed the credulity of the thousands of Mohammedans who visited the spot each year. In 1927 the tomb was destroyed and the woman who ran the racket from an underground crypt retired with a fortune.—Collier's Weekly.

Where Gray Hair Is Honored

In the Far East patriarchal beards and white hairs are associated with dignity and honor. Possession of a mustache of magnificent proportions merely adds to the éclat of its possessor. To this it may be added that a beardless chin does not command respect. In fact, a man who has lost either his mustache or his beard seems to lose his face with it, in the East. Not so, however, with the hair, for a bald man is sure of his place in society and honor in the Orient.

COAST GUARD'S JOB IN ALASKA VARIED

Service Lives Up to Motto "Always Ready."

Juneau, Alaska.—"Semper Paratus—Always Ready" motto of the United States coast guard, is most effectively carried out in the Alaska division of the service.

Guardmen are prepared, day and night, to rush food to starving villages, administer justice in remote communities, rescue crews of ice-bound whalers or tend sick and injured at remote Eskimo outposts.

Each of the five coast guard boats cruising in and out of rocky fjords or through ice floes is a store, post office, police court, battleship and hospital, all in one.

The story of Alaska is associated closely with the coast guard, for in 1867, when Secretary of State William H. Seward bought the vast territory, it was the old cutter Lincoln that was sent to survey the new possession.

Many thrilling rescues in the far north are part of coast guard history. In 1884 the old cutter Bear saved the lives of Gen. Greeley and his men—the same general, now ninety-one, who was rewarded this spring by congress for his Arctic explorations.

Another dramatic rescue by the Bear was that of the crew of the foundered whaling ship Napoleon, in 1890. Information of the Napoleon's plight, scribbled in Eskimo on a piece of board, was passed from village to village, until it finally reached the Bear.

The coast guard brought the first reindeer to Alaska from Siberia in the '90s and under its watchful eye the Pribilof Island seal herd has increased by more than ten times in the last 25 years.

One cutter will make two hasty trips to Point Barrow this summer, carrying supplies to government employees at that remote station. Two will follow the Bering sea seal herds to protect them from poachers. The others will patrol villages and aid fishermen and shipping, if needed.

Romanoff Has Modest Home Near Pittsburgh

Pittsburgh.—Gregory Romanoff cherishes no delusions of the grandeur he and his wife once knew.

The son of an officer in the czar's imperial army, reconciled to the loss of his ancestral estate in Russia, he has received his first naturalization papers.

With his wife and four daughters, Romanoff lives in a modest four-room dwelling in the nearby borough of Homestead, and ekes out an even more modest living by teaching Russian at church schools and directing choral groups.

Of necessity, the daughters will be denied the advantages of luxury and of education in exclusive seminaries such as their parents knew in an Ukrainian province years ago.

Romanoff makes no pretense of royal lineage, although he traces the family name to Alexander the Third. His father once was asked by the czar to change his name in order that "Romanoff" might be reserved for the royal family. But his father declined, even though a handsome cash settlement was offered.

When rumblings of the revolution broke upon the Russian scene, Romanoff and his bride fled by different routes to Canada. Their wistful hope some day to reclaim their home vanished with the Soviet rise to power, and they settled here.

Here's Absent-Minded Professor Lost in City

Cleveland, Ohio.—Here's a true "absent-minded professor" story:

Though Dr. Paul A. Biefeld, retired professor of astronomy and director of Swaney observatory at Denver university, has traveled worldwide, he came up here from Granville, Ohio, got lost from relatives and friends and didn't know what to do.

He had attended the theater with his wife, daughter and friends. Somehow he became separated from them. He forgot his daughter's address. It didn't occur to him that her address would be in the telephone book, so he spent the night in the Y. M. C. A.

Relatives, distraught, asked police to look for an amnesia victim. Doctor Biefeld's safety was not established until finally he telephoned a friend. He occupies several lines in "Who's Who in America" and is an astronomical authority.

Wanted Youth Found Caddy for Judge

Port Arthur, Texas.—Deputy Sheriff Claude Goldsmith and T. G. Pool put in a hard day recently searching for a youth who was wanted on an old burglary indictment.

They went to his home several times and searched all places the youth frequented, but with no results. Finally, they decided to wait at his home until he returned.

Upon their arrival they found him, less than five minutes after Criminal Judge R. L. Murray, who was to hear the case, had left him there.

The boy had been caddy for Judge Murray while the others searched.

Washington Chief Center of the World for Maps

Generally unknown is the fact that Washington is the greatest map-making center in the world and the storehouse of the largest number of completed ones, says the Washington Star.

In its more than 50 collections, containing about 20,000,000 on file—3,500,000 all different—one may find literally everything from airplane maps to whale charts. The air above the earth with its "bumps" and currents; cadastre charts which show every contour of the soil, its chemistry, geology and man-made objects on the surface; the mountains and valleys of the continents under the seas—in some way, every square inch of the known world may be seen on maps drawn, published, compiled in Washington or purchased abroad, and now in public and private collections.

When Hipparchus had scratched the last line on his crude map of the world as it was known in 200 B. C., he could set aside his stylus and the mud tablet was set in the oven, and feel reasonably sure that his work would stand for at least another score of years. In that day the face of the world altered slowly.

Catching up with our changing world to map it is no longer the leisurely task of a cloistered draughtsman. It is rather the hurried, full time toll of highly skilled artists, and is crisscrossed with elements of adventure, news reporting and accurate, laborious research.

Busy Little Insect Is

Manufacturer of Shellac

Few people realize a man's debt to an industrious little insect called lacifer lacca. India first knew it as a rampaging parasite, despoiling forests. But, as the raw manufacturer of shellac, the resin used for making gramophone records, stiffening straw hats, coating wood and metals, and other insulating purposes, it is today treated with marked respect.

Knowing its appetite for succulent young branches, the natives prepare these specially for it, attaching them to trees. The lac then dines at its pleasure, covering the bark with a resinous secretion. The female lac is the most prolific source of supply. Then, when the harvest appears ripe, the branches are cut down and scraped. The resin is melted into a plastic mass, which on drying is cut up into circular cakes or sheets, ready for export.—Tit-Bits Magazine.

Norwegian Elkhound Friendly

Briefly, the Norwegian elkhound is a workmanlike dog that is friendly and intelligent, has a lot of energy yet is not of a nervous type, knows how to hunt because he has been used as a hunting dog in Norway for many, many years, and makes a mighty attractive home dog and companion. He'll weigh around 45 or 50 pounds and has a thick, weather-resisting gray coat with black tips on the outer hairs. A well formed specimen of the breed stands about 20½ inches at the shoulder. With pointed ears, very human looking eyes, the Norwegian elkhound gives you the impression that he is more than just a home dog.

Sport Seasons Reversed

In Darwin, Australia, the climate brings about a reversal of the usual sports season. The town is the northernmost of the continent and right in the heart of the tropics. There summer is the rainy season and the ground becomes completely saturated, where as in winter it is dry and as hard as concrete. For this reason football players, preferring spongy ground, choose summer, while cricket enthusiasts, finding hard ground more suitable, play their game in winter.
